

Executive Summary

The purpose of this project was to provide an overview and definition of the Ambulatory Surgery Centers market. Freestanding outpatient facilities performing same-day surgical care; roughly 6,300 Medicare-certified centers operate in the US. Three main categories (Hospital-Affiliated ASCs, Physician-Owned ASCs, and Corporate-Chain ASCs) exist, with each category having its own ownership, participation, and benefits nuances. Together, they make up a growing and consolidating market.

The key players in the ecosystem include Ecosystem players list (sample). Within the surgery center, Buyer roles sentence (sample) The end-to-end process differs depending upon Process variation drivers (sample), but ultimately is built on Core process essence (sample). Cost, motivations, and pain points vary depending upon the process. Vendor landscape sentence (sample)

As we explore pathways in the Ambulatory Surgery Centers market, the following opportunities should be considered: Higher-Acuity Migration, ASC Management Platforms, Anesthesia Staffing, Payer Partnerships, and Supply-Chain Consolidation.

Ambulatory Surgery Centers Market

Definition and Overview

The broad definition for Ambulatory Surgery Centers exemplifies its many purposes and uses

 What is it?	"Distinct entities that operate exclusively to provide surgical services to patients not requiring hospitalization" (CMS).
 What is the goal?	Market goal (sample)
 Why is it growing?	Market growth drivers (sample)

Key Uses for Ambulatory Surgery Centers

- Key use 1 (sample)
- Key use 2 (sample)
- Key use 3 (sample)
- Key use 4 (sample)
- Key use 5 (sample)
- Key use 6 (sample)
- Key use 7 (sample)
- Key use 8 (sample)
- Key use 9 (sample)
- Key use 10 (sample)
- Key use 11 (sample)

Ambulatory Surgery Centers can be bucketed into three main categories

	Hospital-Affiliated ASCs	Physician-Owned ASCs	Corporate-Chain ASCs
Types of Ambulatory Surgery Centers	- Category 1 type 1 (sample) - Category 1 type 2 (sample)	Category 2 type 1 (sample) - Category 2 type 2 (sample) - Category 2 type 3 (sample) - Category 2 type 4 (sample) - Category 2 type 5 (sample)	- Category 3 type 1 (sample) - Category 3 type 2 (sample) - Category 3 type 3 (sample) - Category 3 type 4 (sample) - Category 3 type 5 (sample) - Category 3 type 6 (sample) - Category 3 type 7 (sample)
		Medicare certification and AAAHC/TJC accreditation apply across categories.	
Most Common or Well-Known	Category 1 examples (sample)	- Category 2 example 1 (sample) - Category 2 example 2 (sample) - Category 2 example 3 (sample)	- Category 3 example 1 (sample) - Category 3 example 2 (sample) - Category 3 example 3 (sample) - Category 3 example 4 (sample) - Category 3 example 5 (sample)
Ownership (Who Runs)	Category 1 owner (sample)	- Category 2 owner 1 (sample) - Category 2 owner 2 (sample) - Category 2 owner 3 (sample)	- Category 3 owner 1 (sample) - Category 3 owner 2 (sample) - Category 3 owner 3 (sample)
Required?	Category 1 required (sample)	Category 2 required (sample)	Category 3 required (sample)
Benefits of Participation	Category 1 benefit 1 (sample)	- Category 2 benefit 1 (sample) - Category 2 benefit 2 (sample) - Category 2 benefit 3 (sample) - Category 2 benefit 4 (sample) - Category 2 benefit 5 (sample)	- Category 3 benefit 1 (sample) - Category 3 benefit 2 (sample) - Category 3 benefit 3 (sample)

Challenges exist with Ambulatory Surgery Centers design and participation

Ambulatory Surgery Centers

Key Players and Processes

Key players in the Ambulatory Surgery Centers ecosystem have different levels and types of involvement

Key players in the surgery center have both unique and overlapping needs

	Titles	Pain Points	Wants
 Target Purchaser Persona	• Purchaser title 1 (sample) • Purchaser title 2 (sample) • Purchaser title 3 (sample) • Purchaser title 4 (sample) • Purchaser title 5 (sample) • Purchaser title 6 (sample)	• Purchaser pain 1 (sample) • Purchaser pain 2 (sample) • Purchaser pain 3 (sample) • Purchaser pain 4 (sample) • Shared pain 1 (sample) • Shared pain 2 (sample)	• Purchaser want 1 (sample) • Purchaser want 2 (sample) • Purchaser want 3 (sample) • Shared want 1 (sample) • Shared want 2 (sample) • Shared want 3 (sample)
 Target Ambulatory Surgery Centers User	• User title 1 (sample) • User title 2 (sample) • User title 3 (sample) • User title 4 (sample) • User title 5 (sample)	• User pain 1 (sample) • User pain 2 (sample) • User pain 3 (sample) • User pain 4 (sample) • User pain 5 (sample) • User pain 6 (sample)	• User want 1 (sample) • User want 2 (sample) • User want 3 (sample)

Similarities across users

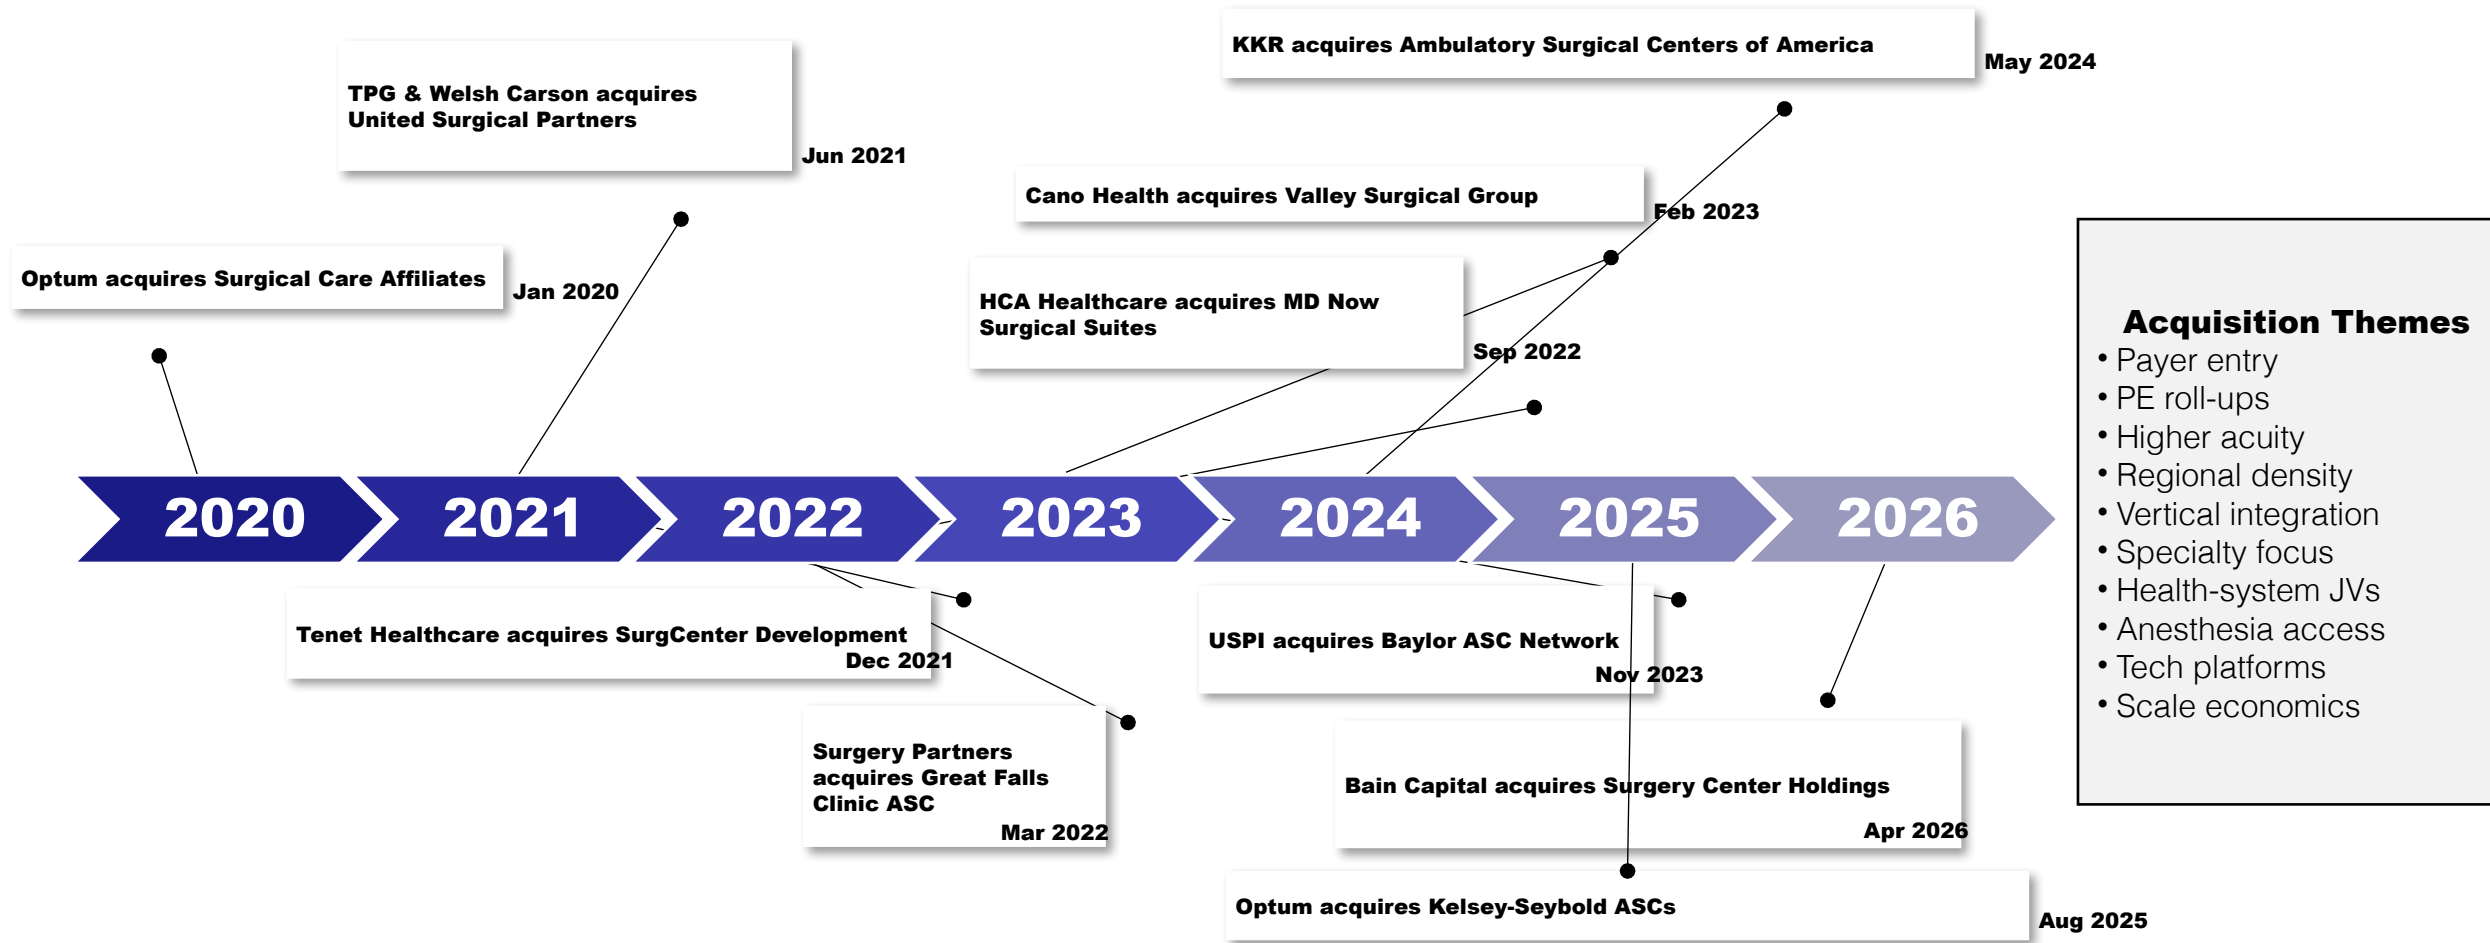

Costs, motivations, and pain points vary depending on the process

	Pricing Model/Costs	Motivations	Pain Points
Process 1 name (sample)	•Process 1 cost 1 (sample) •Process 1 cost 2 (sample)	+ Process 1 motivation 1 (sample) + Process 1 motivation 2 (sample) + Process 1 motivation 3 (sample)	⊖ Process 1 pain 1 (sample) ⊖ Process 1 pain 2 (sample) ⊖ Process 1 pain 3 (sample) ⊖ Process 1 pain 4 (sample) ⊖ Process 1 pain 5 (sample) ⊖ Process 1 pain 6 (sample)
Process 2 name (sample)	•Process 2 cost 1 (sample) •Process 2 cost 2 (sample)	+ Process 2 motivation 1 (sample) + Process 2 motivation 2 (sample) + Process 2 motivation 3 (sample) + Process 2 motivation 4 (sample) + Process 2 motivation 5 (sample)	⊖ Process 2 pain 1 (sample) ⊖ Process 2 pain 2 (sample) ⊖ Process 2 pain 3 (sample)
Process 3 name (sample)	•Process 3 cost 1 (sample) •Process 3 cost 2 (sample) •Process 3 cost 3 (sample) •Process 3 cost 4 (sample)	+ Process 3 motivation 1 (sample) + Process 3 motivation 2 (sample) + Process 3 motivation 3 (sample) + Process 3 motivation 4 (sample) + Process 3 motivation 5 (sample)	⊖ Process 3 pain 1 (sample) ⊖ Process 3 pain 2 (sample) ⊖ Process 3 pain 3 (sample) ⊖ Process 3 pain 4 (sample) ⊖ Process 3 pain 5 (sample) ⊖ Process 3 pain 6 (sample) ⊖ Process 3 pain 7 (sample)

Ambulatory Surgery Centers Market

Market Activity — Acquisitions &
Funding

Acquisitions have been occurring with frequency

Hospital systems, payers, and PE-backed chains are all consolidating a still-fragmented ASC base.
